

Introductory Seminar for

The **HeArt** of Relationships

with Ann Ladd, Phd, LCSW

We finally know what's different about couples that stay happily together.

It's not that they are better matched, better looking, more in love or more passionate. It's not that they have fewer differences or less to fight about.

*The difference between successful and unsuccessful couples is **how** they handle these differences.*

*The good news is that anyone can learn to do relationships better and smarter. **It turns out you CAN learn how to get the feeling back.....and keep love alive."***
